01 — THE OPPORTUNITY

We target audiences with a clear reason to reach out to you.

We recommend starting with home and flat removals, then testing other transport needs separately.

RECOMMENDED CAMPAIGN FOCUS

Home and flat removals

We lead the campaign with people planning a home move. What we need from you is the job sizes, the routes and the minimum price points that make this worthwhile for you.

NEXT TARGET AUDIENCE TEST

Larger furniture and multi-item transport

We test this separately and see if we can attract substantial transport jobs rather than low-value or single-item requests.

THIRD OPPORTUNITY

Business transport

We can test office moves, pallets and other business transport separately, using the routes, job sizes and minimum prices you agree with us.

02 — YOUR REFERENCE POINTS

We use AnyVan and Pickfords as blueprints for the quote journey.

You mentioned AnyVan and Pickfords as blueprints. Looking at their websites, what we want to do is identify and connect a specific transport need with a price or quote request.

AnyVan

Transport needs organised into clear services.

Pickfords

A clear removal journey and a quote request.

CLEAR SERVICE

Show the job you offer

We show the specific moving or transport job you offer, so people can recognise whether it fits their needs.

SIMPLE QUOTE REQUEST

Make requesting a quote easy

We give people a clear next step and a short form to tell you what needs moving, where and when.

VIABLE JOBS

Agree viable routes and jobs

We agree routes, job sizes and minimum prices with you, Adrian, so the campaign focuses on work that is worthwhile for you.

03 — TARGET AUDIENCE

Each ad campaign focuses on a specific target audience with pain points and needs.

We give each audience a relevant message and a quote form that helps you assess the job.

 UK-wide service area

 Adults · all genders

 One priority service

 FIRST CAMPAIGN

People planning home or flat moves

Moving customers need a date, enough help and room for their load. We show removal support and ask about timing, load size and route.

 SEPARATE TEST

People moving furniture or several items

Their furniture will not fit in a car, or several items need moving. We show larger loads and ask what needs transporting.

 LATER OPPORTUNITY

Businesses arranging transport

Businesses need stock, pallets or office equipment moved on time. We name the service and collect the load, route and timing.

WHAT QUALIFIES THE REQUEST

Job type + collection & delivery postcodes + load size + moving date

We agree the initial routes and job criteria with you before launching.

04 — CAMPAIGN STRUCTURE

We propose a £1,000 ad budget and focused targeting.

We suggest an initial advertising budget of £1,000 per month to learn whether home-removal enquiries can become worthwhile bookings for you.

- ✓ We run adverts on Facebook and Instagram with a monthly ad budget of £1,000 — approximately £33 a day.
- ✓ We start with home and flat removals in the areas and on the routes you want to serve.
- ✓ We send interested people to a Meta quote form that collects the details you need to assess their move.
- ✓ We compare enquiry cost, job suitability and the bookings you report to us.
- ✓ We introduce a separate audience or service test when the first campaign gives us enough information to make that decision.

The £1,000 monthly ad budget sits alongside our £500 monthly retainer, making the total monthly investment £1,500.

— 05 — AD CONCEPTS

Our creatives show the transport jobs you offer and make quote requests easy.

We use clear images and copy to show the type of job you want, address the audience's needs and invite them to request a quote.

LAUNCH CONCEPT 01 · HOME REMOVALS

DC

Direct Couriers London
Sponsored · Ad concept

...

Planning a house or flat move? Direct Couriers London provides removals across the UK. Tell us where you're moving from, where you're going and your preferred date to request a quote.

06 — THE QUOTE REQUEST

How we use Meta Ads forms

We keep the quote request inside Facebook or Instagram and collect the details you need for your first conversation.

EXAMPLE QUOTE FORM

Let’s plan your move.

Share the basics so we can discuss your quote.

What needs moving?

House / flat move

Collection postcode

e.g. LS1 1AA

Delivery postcode

e.g. M1 1AD

Approximate load size

e.g. Two-bedroom flat

Preferred moving date

Your preferred date

Contact details

Name · phone · email

Request my quote →

This preview does not submit a request.

FORM QUESTION	WHY IT MATTERS
What do you need moved?	Separate home moves from other requests.
Collection postcode	Identify the starting point.
Delivery postcode	Assess the route.
Approximate move or load size	Understand vehicle and handling needs.
Preferred moving date	Check timing and capacity.
Name, phone and email	Discuss the request and provide a quote.

We ask for the job type, collection and delivery postcodes, load size, preferred date, name, phone number and email address.

The form requests a quote. You confirm the details, price and availability with the person before agreeing a booking.

— 07 — FROM ADVERT TO BOOKING

We design a clear Meta Ads sales funnel from enquiry to booking.

The advert starts the Meta Ads sales funnel. We create the route to an enquiry; you personally follow up, quote and book the job.

01 We show a relevant advert

— We connect a specific moving or transport need with a clear invitation to request a quote.

02 We collect the quote request

— We use the Meta form to collect contact details, locations, load size and the preferred date.

03 We send you the enquiry alert

— We send the enquiry alert directly to you, Adrian, through the agreed setup, with the details submitted in the form.

04 You check details and quote

— You contact the person, check the job details and availability, then supply your quote.

05 You book and deliver

— You agree the price and arrangements with the customer, confirm the booking and deliver the job.

06 You share the job outcome

— You tell us whether the enquiry was suitable, quoted and booked. We use your feedback to improve the campaign.

Our role

Advertising, forms, routing and measurement.

Your role

Customer contact, quotes, bookings and delivery.

— 08 — LEAD HANDLING

We recommend making responding to enquiries part of your plan.

We recommend calling within two minutes when you are available. Otherwise, follow up as soon as you can.

Next action

Confirm details and quote

New

Contacted

Quoted

Booked

Record the actual outcome in the agreed lead tracker.

- ✓ We route enquiries to you through the agreed setup so you can see new quote requests.
- ✓ You personally call the person, check the details and decide whether the job is suitable.
- ✓ You prepare the quote, answer questions and confirm the booking.
- ✓ You record whether each enquiry was suitable, quoted and booked, along with the job value.
- ✓ We use your feedback to refine the adverts and forms.

We agree a practical follow-up routine with you before the campaign starts.

09 — THE ENQUIRY MODEL

Your enquiry range with a £1,000 monthly ad budget

At an assumed advertising cost of £25—£45 per submitted enquiry, a £1,000 monthly ad budget would produce approximately 22—40 enquiries. This is a planning scenario, not a forecast or a verified result for your business.

PER MONTH · AT £1,000 AD SPEND

~22—40

Submitted quote enquiries

OVER THREE MONTHS · CUMULATIVE

~67—120

At £3,000 total ad spend

AD SPEND PER ENQUIRY

£25—£45

Planning range

All-in cost per enquiry

£37.50—£67.50 including the £500 retainer

Model basis

Full ad spend · same CPL range each month

Planning reference: [Edge Digital's UK home-service observations](#); a nearby sector, not a courier benchmark.

Planning assumptions informed by related UK service advertising observations, not verified Direct Couriers London results. Actual costs and volumes can fall outside the range.

The model assumes full ad spend and the same cost range throughout. Submitted enquiries, suitable jobs, quotes and paid bookings are counted separately.

10 — THE BUSINESS CASE

How many jobs would cover your £1,500 monthly investment?

Revenue alone does not tell us whether the campaign pays for itself. Contribution is the money left from a job after its direct delivery costs.

ILLUSTRATIVE CONTRIBUTION PER JOB	JOBS TO COVER £1,500
£150	10
£250	6
£375	4

Monthly break-even jobs = $\text{£1,500} \div \text{actual contribution per job}$

These examples are not your confirmed margins or a booking forecast. They show why we need to agree which jobs are worth pursuing.

This covers advertising and agency spend; it does not establish the profitability of the whole business.

— 11 — WHAT WE DELIVER

What we manage for your Meta Ads campaign

We manage the advertising, quote forms and campaign reporting. You personally handle enquiries, quotes, bookings and delivery.

ADVERTS

We create and run your adverts

We prepare the images, copy and targeting around the services, routes and job sizes we agree with you.

QUOTE FORMS

We build your quote forms

We collect the job and contact details you need to assess each enquiry and prepare a quote.

ENQUIRY ROUTING

We route enquiries directly to you

We set up and check the agreed route for delivering new enquiry details to you.

CAMPAIGN MONITORING

We monitor and refine your campaign

We review spend, enquiry costs and your feedback, then adjust the adverts, targeting and forms.

REPORTING

We report what the campaign produces

We combine advertising results with the quote and booking figures you supply to help you assess the return.

This engagement covers Meta advertising. Additional website, SEO or CRM projects can be agreed separately.

12 — THE THREE-MONTH PLAN

How we launch, assess and improve your campaign over three months

We use the three months to launch a focused campaign, learn from your enquiries and assess whether the bookings justify the investment.

**MONTH 1****We set up and launch**

We agree job criteria with you, prepare the adverts and form, check enquiry delivery and launch once you approve the setup.

MONTH 2**We refine using your feedback**

We review enquiry costs and the outcomes you supply, then refine the campaign. We consider a separate audience test if the evidence supports it.

MONTH 3**We assess the results with you**

We review spend, suitable enquiries and bookings with you, using your job contribution figures to agree the next step.

Changes respond to evidence. A new month does not automatically mean better results or a larger budget.

13 — YOUR PART

What we need from you to launch and turn enquiries into bookings

We handle the campaign. You provide the job criteria, follow up personally and tell us which enquiries become bookings.

WHAT WE NEED FROM YOU	HOW IT HELPS
Access to your Meta advertising account and business assets	We set up and manage your campaign through the agreed accounts.
Your approval of the advert, form and privacy-link wording	We confirm the setup with you before the campaign launches.
Your preferred routes, job sizes and minimum prices	We focus the campaign on work that is worthwhile for you.
Your availability and delivery capacity	We plan the campaign around the work you can take on.
Photos and confirmed details of the services you offer	We create adverts that accurately show your business.
Your personal follow-up, quotes and booking decisions	You check each job and agree the price and booking directly.
Enquiry outcomes, booked-job values and contribution after direct delivery costs	We assess enquiry quality and whether the campaign makes commercial sense for you.

14 — HOW WE MEASURE

How we report enquiry costs, job suitability and bookings

We report the advertising results. You supply the figures for quotes, bookings, job values and contribution after direct delivery costs.

Spend

Enquiries

Suitable jobs

Quotes

Paid bookings

ADVERTISING

We track spend and enquiry costs

We show the advertising spend, submitted enquiries and cost per enquiry, so you can see what the budget produces.

ENQUIRY QUALITY

You tell us which jobs fit

You supply the figures for suitable enquiries and quotes. We use them to understand whether the campaign attracts the work you want.

BOOKING VALUE

We assess bookings using your figures

You supply booking, job-value and contribution figures. We compare them with the total campaign cost to help you assess commercial value.

Each review ends with a practical decision: what to keep, what to change and what we need to learn next.

— 15 — YOUR AGENCY TEAM

Digital Movement UK manages your Meta Ads campaign

Agency support for your nationwide UK transport business.

Alex Muller

16 — INVESTMENT & COMMITMENT

Your monthly investment: £500 retainer plus £1,000 ad budget

We manage your campaign for a £500 monthly retainer. You invest £1,000 per month in Meta ads, bringing the combined monthly investment to £1,500.

COMBINED MONTHLY INVESTMENT

£1,500 / month

£500 retainer + £1,000 ad budget

Initial contract **3 months**

Combined three-month spend **£4,500**

Discuss the campaign →

ITEM	PER MONTH	THREE MONTHS
Digital Movement UK retainer	£500	£1,500
Meta ad budget	£1,000	£3,000
Combined investment	£1,500	£4,500

- ✓ Your initial contract runs for three months.
- ✓ You pay the £1,000 monthly ad budget to Meta.
- ✓ Our £500 monthly retainer covers the campaign services in this proposal.

— 17 — LET'S SHAPE THE CAMPAIGN

Agree the job criteria and campaign setup with us

Agree four things that will shape the advertising and the result.

PRIORITY

Agree your first campaign focus

We recommend home and flat removals. You confirm the job sizes and routes you want us to focus on.

CAPACITY

Confirm the work you can take

You tell us your availability and delivery capacity, so we can plan the campaign around the work you can handle.

MARGIN

Define a worthwhile job for you

You confirm minimum prices and contribution after direct delivery costs. We use those figures to assess the campaign with you.

YOUR CALLBACK ROUTINE

Agree your personal follow-up routine

You confirm how you will receive and respond to enquiries. We recommend a callback within two minutes when you are available.

With those answers, we can finalise the scope and terms, prepare the campaign for review and seek your approval to launch.
